ENES KOCAYILMAZ

Computer Engineer

According to my experiences in my education and business life, I had the opportunity to work with different people, take part in a team, and learn how to produce together. I have been charged as an intern ABAP consultant in one of the SAP partners. I would like to improve myself SAP area and work as a member of your team to contribute to the growth of the company. I am eager to learn.

Education

Düzce University 2020-2024

Throughout my school years, I worked on various projects to apply the knowledge I gained in practice. In the object-oriented programming course, I developed a hospital management system using C#. Leveraging the insights from the deep learning course, I created a cancer detection system using MATLAB. For my thesis, I designed a cloud-based system using JavaScript, HTML, and CSS in the frontend, and Python in the backend. The experiences I gained during my school years have laid a strong foundation for me to be more effective and innovative in my post-graduation career.

Experience

Lamme Textile Management - Frankfurt/Germany

Packager

During this period, I had the opportunity to not merely enhance my proficiency in the English language but also to elevate my capabilities in effective teamwork. I acquired significant experience in tackling industry challenges and developing a solution-oriented mindset. Now equipped with this valuable experience, I am poised to contribute to new projects and challenges.

Finale Software - Istanbul/Turkey

Intern Abap Consultant

During my internship, I learned the basic concepts of the ABAP programming language and gained ABAP coding practice. My duties on the ABAP side of this process were reporting, data extraction in SAP systems, improving ABAP programs, and correcting errors.
